Fairhaven Merchants Petition to the Mayor March 7, 2012

Dear Mayor Linville,

We respectfully submit this petition in opposition to the Bellingham Transportation Commission's proposed resolutions regarding the following:

"12. Explore best locations for pedestrian-only streets – building upon the experience of closing roads during special events.

13. One possibility to consider – Create a pedestrian-only zone at 10th/Mill to Village Green and around the entire block at 11th to Harris. Special surfaces and access could be designated for deliveries and Village Inn parking."

We, the undersigned merchants of Fairhaven, care greatly about maintaining and improving the opportunity to operate successful businesses in the district. We cannot support the above resolutions as stand-alone proposals. No one will be well-served by a haphazard plan that suddenly drops pedestrian-only zones into the heart of the business district that already has parking issues.

Before we can in any way consider supporting street closures:

There must be a comprehensive parking-pedestrian-transportation plan that is tied in to the entire Tier One Urban Village plan. If street closures are proposed, then there must be a plan for the displaced parking nearby. No closures until the parking is in place.
