

Make sure signage is adequate like: "Keep dogs under control in off-leash areas" It's really a shame that a few bad dog owners give all dogs a bad reputation.

Trails of interest, with inclines and curves. Lots of loops.

Parking lot problems dealt with by signs and future annexation.

Designated off-leash area for dogs to run/chase balls - preferably fenced.

There are lovely green dots for boulders, pier access, etc., but still NO dog off-leash area (DOLA) as part of the Master Plan. In the September 15 meeting it was suggested to turn the Back Glade area into a DOLA. If this should be fenced in then so be it. Grateful Dogs could be partially responsible financially to fund this DOLA. I am speaking very naively, as I don't know how much money this fencing would cost. How much did the Padden off-leash area cost? Surely some of the funds used for "environmental art" could be funneled into this project. And obviously, this is of some importance since it keeps getting brought up at these meetings. Instead of this issue being pushed "under the table", let's deal with it in a forthright manner. I'm sure Grateful Dogs could do a fund-raiser of some kind. An "outdoor classroom" is great, but people/dog issues are more pressing. Let's work together.

PREFERRED MASTER PLAN - LITTLE SQUALICUM PARK
