

VISITORS WITH DISABILITIES

Prior arrangements with Parks Department staff to best accommodate individuals or groups with disabilities are possible but limited. An accessible restroom is typically provided only for special events or programs.

Due to grades and stairs, building-site wheelchair accessibility standards are not possible for the buildings and paved areas. However, arrangements for access to the barn, garage and Gates House can be made. Other trails on the site are rustic and steeper but are gradually being improved. Construction of an ADA parking stall and a handicap accessible trail to Inspiration Point will be completed in late 2009 or early 2010.
