

#	Date Rec'd	Subject	Citizen/ Group	Citizen Comments on New Whatcom Waterfront Planning – December 2006
<i>Last Update 11/30/2006</i>				<i>Citizen comments received from citizens submitting comment to the Port and City and through the New Whatcom website through December 2006. Prior month comments can be viewed on the website in separate monthly documents.</i>
267	12/13/06	Land Use	"Carol Mills" <millsrc@comcast.net>	I am writing regarding WWU plans to locate a facility at the development at the GP property. I do not think that that is the best use of this property or the tax payers monies that it would take to build there and the need for transportation to and from the main campus. The things that do go in should help pay the cost of development not add to it. WWU already some of the most prime property in Bellingham they do not need to take more. Thank you for your time.
266	12/10/06	Road Construction materials	"Victor S." <victor.cmyk@gmail.com>	You should look into using different cement and pavement options on streets. In Olympia, for example, along their waterfront they used "stone" type looking pavement. Not only does it change the character to give it a different feel, separate from downtown, but it slows traffic.
