

City of Bellingham Current Construction Project

Holly Street Bridge Rehabilitation

Project Description

This project is intended to rehabilitate the abutments and deck of the Holly Street Bridge crossing Whatcom Creek. This will be accomplished using “jet grouting” technology to limit disturbance to the creek bed.

Project Bid No: 113B-2005

Project Number: ER-0005

Project Schedule

- Awarded 11/7/05
- Complete work by 3/15/06

Estimated Project Cost

- \$290,425.00
