

City of Bellingham Current Construction Project

Bakerview/Irongate Traffic Signal

Project Description

This project has been on the Six-Year Transportation Improvement Plan for several years. Currently, insufficient gaps occur at this location to accommodate industrial-type traffic to safely access Bakerview Road. With traffic volumes exceeding 12,000 average daily trips, and the surge of private development in the area, this intersection has met appropriate warrants for signalization. In addition to the installation of a fully-automated traffic signal at this location, the project will incorporate a new southbound turn lane on Bakerview Road; the extension of the left-hand turn lane between Irongate and Kramer Lane; and include a new left-turn lane on Irongate Road.

Project Bid No: 92B-2008

Project Number: ES-0245

Project Schedule

- Awarded : 9/15/2008
- Anticipated working days to complete: 65
Project completed: 8/4/09

Contract Amount

\$579,065.00

Final Contract Amount: \$701,809.29

Project Engineer

Derek Holzl, P.E.

Phone: (360) 676-6961
