

City of Bellingham Current Construction Project

Sunset Drive Improvements Phase II

Project Description

This project widens Sunset Drive from 2 lanes to 5 lanes, including a two-way, left-turn lane; two bike lanes; sidewalks on both sides; and bus pullouts. The project is roughly 0.8 miles long and extends from Woburn Street to McLeod Road. These improvements are the second and final phase of widening within the city limits. The project will relieve congestion and provide facilities for alternative modes of transportation. Funding for the project comes from the Federal Highway Administration, Transportation Improvements Board, Washington Department of Transportation, and Bellingham Street Fund.

Project Bid No: 87B-2008

Project Number: ES-0236

Project Schedule

Awarded : 7/21/2008

Completion Date: September, 2009

Contract Amount

\$4,998,038.48

Project Engineer

Mark Handzlik, P.E.

Phone: (360) 778-7900

Email: mhandzlik@cob.org

Contractor:

Ram Construction
