

1                   **Exhibit F: Decision Agenda**  
2  
3

4                   **1:** *Tower Materials: Should the tower at 11<sup>th</sup> and Harris be metal, as proposed?*  
5

6                   **2:** *Is this material on the easterly two-story segment “compatible with the material used  
7 in the existing buildings of primary significance in the core area”?*  
8

9                   **3:** *Does the retaining wall have texture and shape, as suggested at the HPC’s  
10 September meeting?*  
11

12                   **4:** *Does the 3’ 8 ½” high wall on the west side of this proposal, next to A Lot of  
13 Flowers, “achieve compatibility with the architectural features of existing buildings of  
14 significance”?*  
15

16                   **5:** *Does the awning over the door at the corner of 11<sup>th</sup> and Harris’s design “achieve  
17 compatibility with the architectural features of existing building of significance”?*  
18

19                   **6:** *Are the lower windows of A Lot of Flowers too similar to the windows in Fat Pie  
20 Pizza?*  
21

22                   **7:** *Has the design been appropriately simplified, as requested at the HPC’s September  
23 meeting?*  
24

25                   **8:** *Should signage on this building be internally lit (neon, LED, etc?)*  
26

27                   **9:** *Should uplighting of this building be allowed?*  
28

29                   **10:** *Should LED lighting be allowed, especially to highlight elements of the tower? And,  
30 should the color be changeable?*
