

Resource Recovery at Post Point

Turning our waste into valuable resources

Comment Form - All referenced materials are in the meeting guide.

Complete online at: <http://bit.ly/2vQyc6i>

1. Does the preferred alternative (Alternative 3: Class A Digestion & Off-site Soil Blending) accurately reflect the City's *Legacies and Strategic Commitments*? Why or why not?

2. Do you think that Alternative 3 (Class A Digestion & Off-site Soil Blending) realizes (and maximizes) the benefits of resource recovery and reuse for the City of Bellingham? Why or why not?

3. Do you have any other feedback or questions the project team should consider?

4. Who else should we inform about the project (e.g., community groups, individuals)?

5. To be added to our project listserv, please provide your contact information below.
