RE: Fairhaven Highlands Process Confirmation

Dear Bob,

The Fairhaven Highlands Project includes three permit applications: a Wetland/Stream Permit (Type II), a Planned Permit (Type II) and an application for a Preliminary Plat (Type IIIB) with Variances. Under the Bellingham Municipal Code, Title 21.10.050 I have determined that the Type II permits shall be processed concurrently. An Optional Consolidated Permit Process, BMC 21.10.060 allows an applicant with more than one project permit type to request that the review and decision of all permits be consolidated into a single process. The purpose of this letter is to seek confirmation that your client will, or will not, request the optional consolidated permit process for Fairhaven Highlands, allowing the consolidation of the Wetland/Stream Permit (Type II) and the Planned Permit (Type II) with the Preliminary Plat (Type IIIB) into a single process.

Please let me know your client's preference at your earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Stewart", written over a horizontal line.

Timothy M Stewart, AICP  
Director of Planning and Community Development
