Return your unused medication.

Don’t toss it. Don’t flush it. Don’t save it.

Keep your family, our community, and our waters safe. Start a new habit. Dispose of your family’s medications when you change your clocks.

Return your medication in original packaging at no charge year round.

Stored meds can find their way into the wrong hands.

Tossed or flushed meds create pollution that can harm our environment.

Safely dispose of unused medication in original packaging.
