

Civic Stadium Turf Replacement

Photographs

Description

The artificial turf at Civic Stadium, installed in 2000, exceeded its lifespan and needed to be replaced for both safety and playability in 2013.

This project included removing the existing turf and replacing it with new synthetic turf with inlaid markings for soccer, football and lacrosse.

Funding

Total estimated cost of project, including construction, design and contingency was \$480,000, which will be paid for from the following funding sources:

\$180,000 General Fund revenue from WWU

\$300,000 in 1997 Beyond Greenway Levy Funds

Status

Complete.
